

Institute for Engineering of Polymer Materials and Dyes
Elastomer and Rubber Technology Division
30 Harcerska St., 05-820 Piastow, POLAND

**17. INTERNATIONAL CONFERENCE
ELASTOMERS'2017**
"With rubber through life"
November 21–23, 2017, Warsaw

First announcement

Conference topics

- New elastomers and mixes ingredients
- Physicochemistry and modification of elastomers
- Strengthening and crosslinking of elastomers
- Thermoplastic and special elastomers
- Technological processes and processing machines
- Research and control methods – materials, processes and products
- Simulations of processes, phenomena and properties of elastomers and rubber materials
- Rubber materials, elastomer composites and nanocomposites
- Ageing, exploitation and lifetime of rubber goods
- Rubber waste recycling and environmental protection

Presentation forms

- plenary lectures (30 min),
- lectures (20 min),
- short communications (10 min),
- posters (70 cm × 100 cm)

Deadlines (2017)

- May 31 – submission of the registration form of presentations
- June 30 – submission of abstracts (1 page A4 format / electronic form) and paper for publication in "Elastomery" journal
- August 31 – conference fee
- October 20 – submission of the full text of paper (presentation prepared in Microsoft PowerPoint, OpenOffice, LibreOffice)

Payment

Conference fee is 300 € (200 € students and post-graduate students) + 23% VAT

Conference fee includes: admittance to all sessions, the conference proceedings, refreshments, lunches and ceremonial conference dinner.

Information

Conference languages: Poland and English (with a translation into headphones).
